UEMO

- <http://www.uemo.eu>

Principal objectives

- to study and promote the highest standard of **training, practice and patient care** within the field of **general practice** throughout Europe;
- to defend the **role of general practitioners in the healthcare systems**;
- to promote the **ethical, scientific, professional, social and economic interests of European general practitioners**, and to secure their **freedom of practice** in the interest of their patients;
- to determine the **united views of the members** and to **represent** them through the appropriate channels to the relevant European authorities and international organisations;
- to work with **other European medical groupings...**

- UEMO statement on Proposal for a REGULATION OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL on health technology assessment and amending Directive 2011/24/EU. *Adopted by the General Assembly Prague 2 June 2018*

- The idea of companion diagnosis is good to lower side effects and reduce over-medicalisation.
- At the moment in the field of oncology but tomorrow possibly for other domains in general medicine.
- More pressures in oncology for early access for patients.
- In general medicine necessity of good EB studies (cohort studies).
- Risk to increase anxiety with the predictive aspect.
- Specific training for explanations and anxiety management.
- Explanations take time on relationship.
- Driver/mediator
- Regulation is necessary.
